

JANET COWELL
STATE TREASURER

MICHAEL WILLIAMSON
DEPUTY TREASURER

Dear Retiree,

Your Retirement System is committed to providing you as a member of the North Carolina Retirement Systems with the tools to make your retirement secure. This is our state's promise to you for a career spent in public service.

To fulfill that commitment, we are continuously working to improve and enhance retiree benefits. One of our top priorities is to identify additional benefits we can offer to the retirees we serve. As a result of this effort, we are making available to you an option to purchase supplemental dental, vision, and life insurance for which, under most circumstances, your premium payment can be deducted directly from your monthly retirement benefit. This service has been well received and enrollment now exceeds 88,000 participants.

State Insurance Services, Inc. has been selected to provide the supplemental insurance products to our retirees. Enclosed you will find materials from State Insurance Services outlining the details of these products. We encourage you to carefully review all of the information provided.

For additional details or specific questions, please contact the toll-free numbers referenced in the packet. If you have additional questions or concerns, please contact State Insurance Services, Inc. at 1-800-462-7864 or www.stateinsservices.com.

It is important to note that to be eligible to participate in these optional benefits, State Insurance Services, Inc. must receive your completed enrollment form(s) no later than 60 days after you have received your first retirement benefit payment.

Thank you again for your years of service to the people of North Carolina.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Williamson", with a long, sweeping underline.

Michael Williamson, Director
N. C. Retirement Systems Division
